POKEMONS - Aqui podemos criar pokemons, consultar alguns dos status, apagar pokemons.

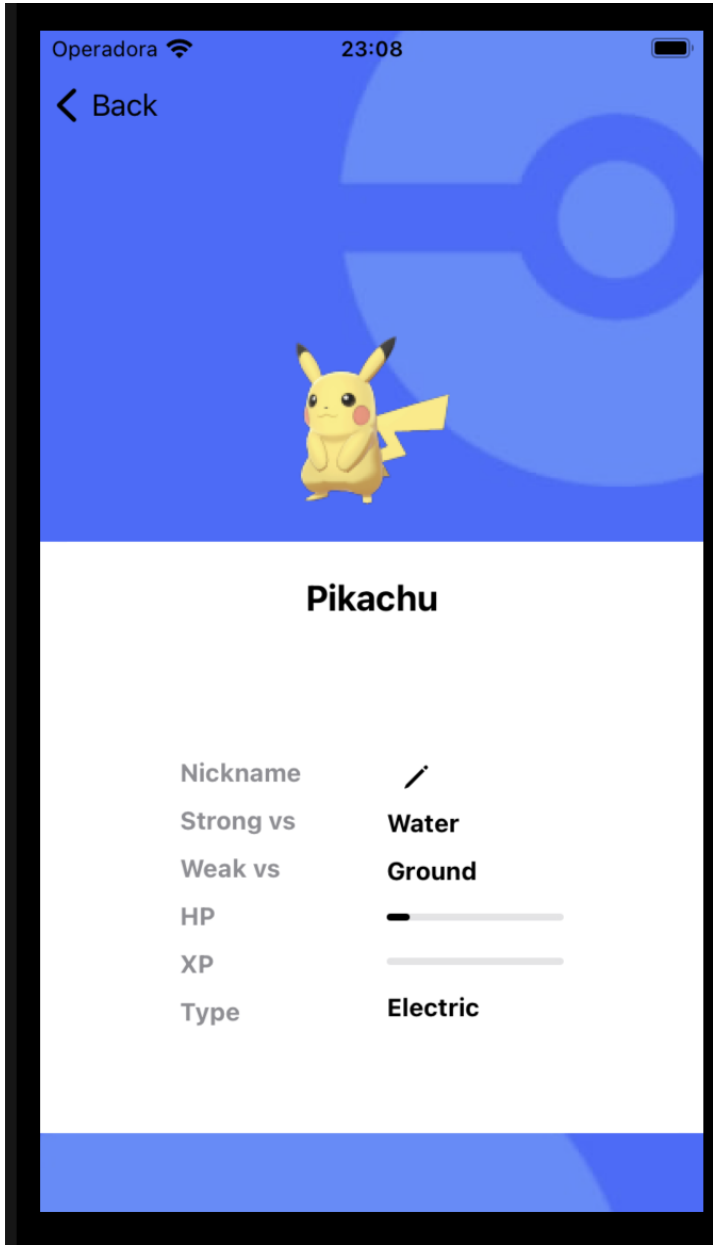

Delete Pokémons

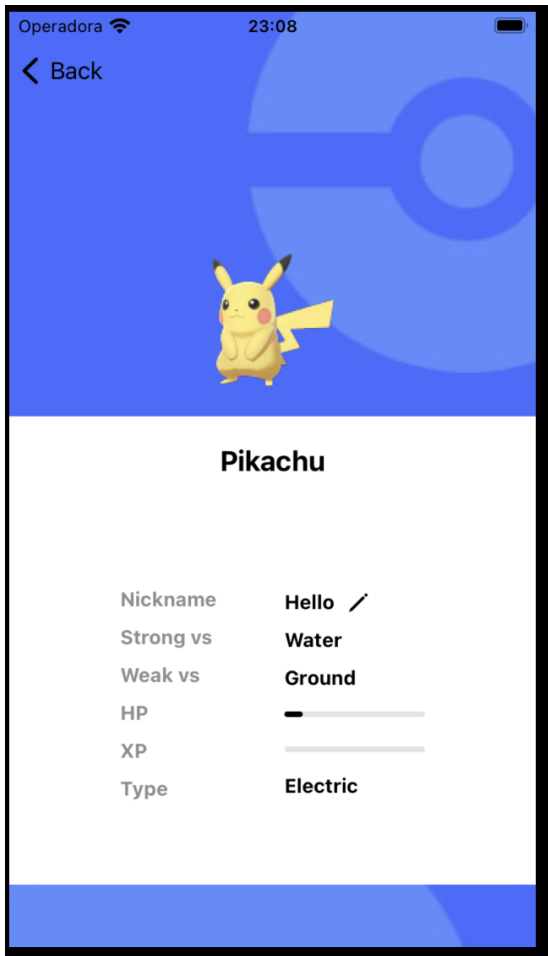

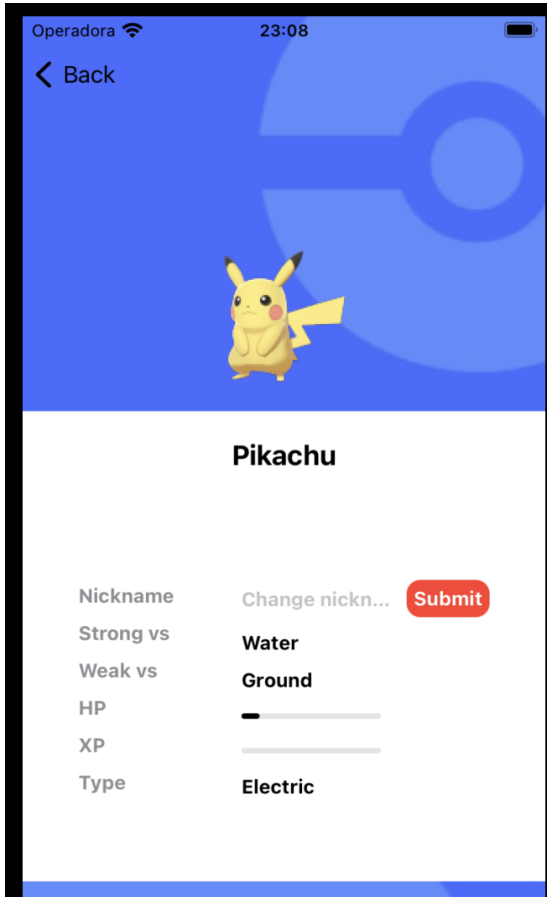

Create Pokemons

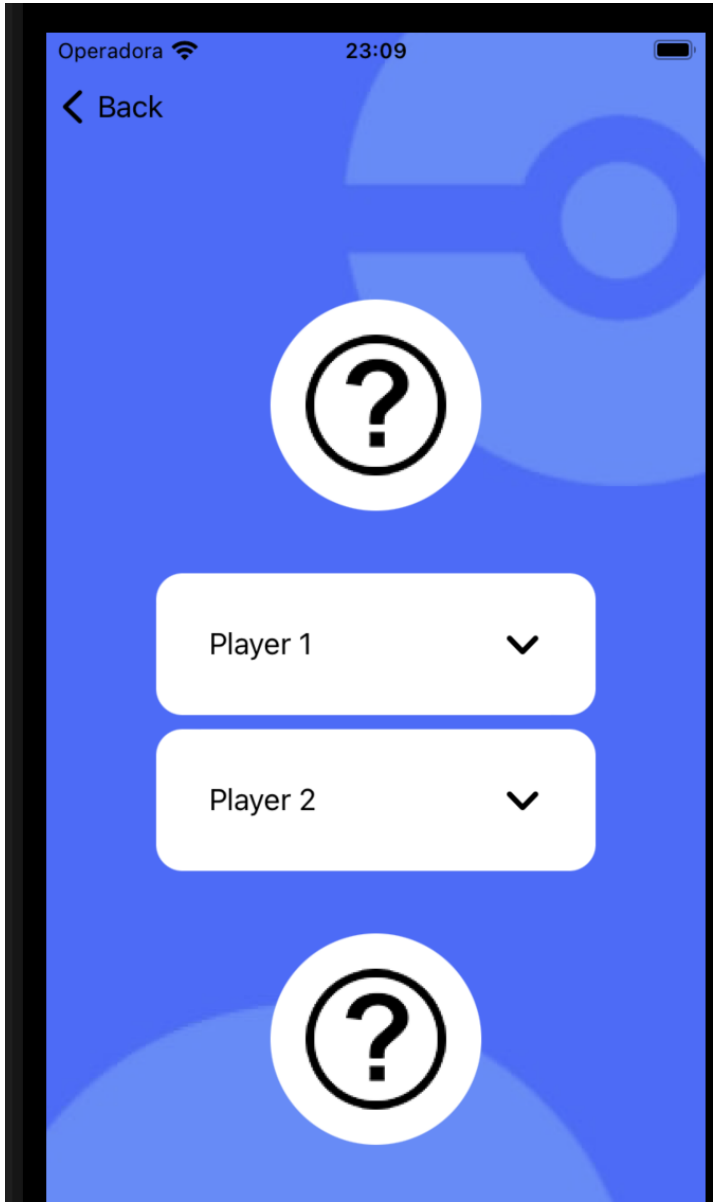

Status Pokemons - Ao clicar num pokemon, vamos parar aqui

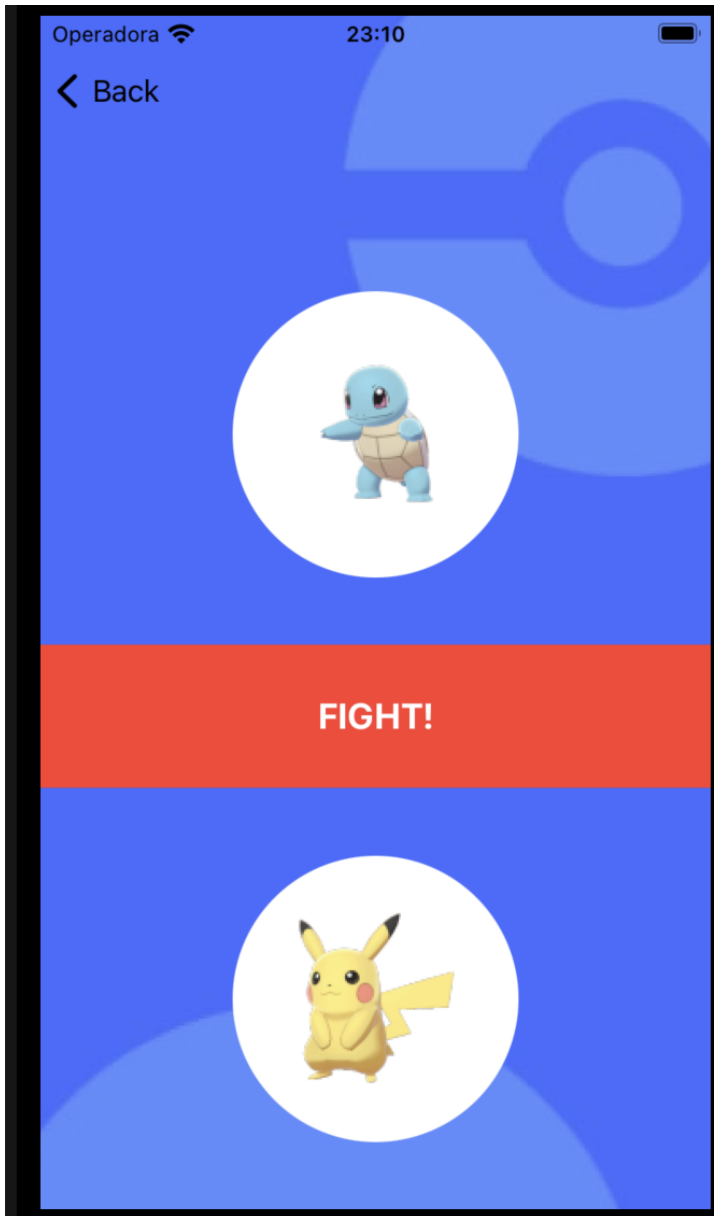

Podemos editar o nickname do Pokemon e guardar

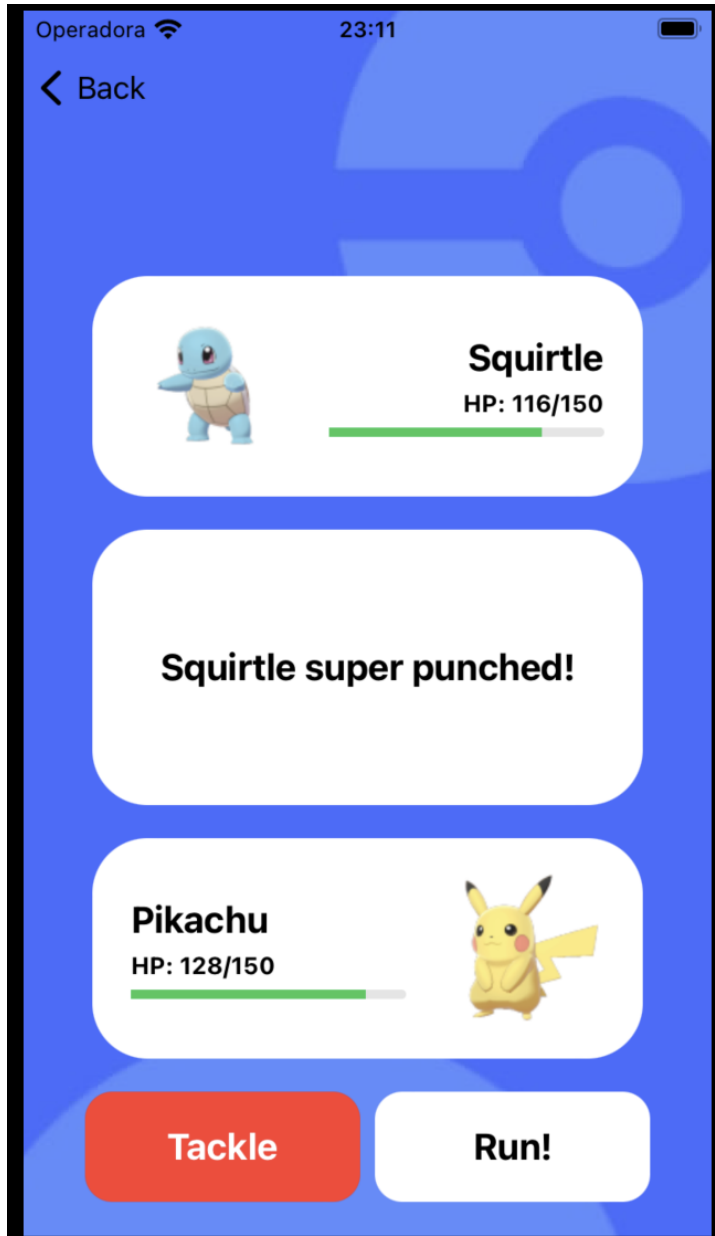

Battle Screen - Escolher Pokémons para lutar

Pokémons escolhidos - Pressionar Fight para entrar na batalha

Ao pressionar atacar fazemos damage ao Pokémon adversário com valores aleatorios.  
As mensagens de ilustração também são aleatórias.  
Podemos fugir do combate.  
Ao ganhar a mensagem dá o vencedor e acrescenta xp (e se for o caso, level up, ao Pokémon em questão) e também criar historico.

Após a batalha podemos ir a nossa lista de Pokémons confirmar o nível e xp necessário para o proximo level up
